Dear colleagues and friends,

The Ian Donald Inter-University School of Medical Ultrasound is present in all 5 continents with more than 120 branches and is continuously growing and spreading the science and art of ultrasound in obstetrics and gynecology. It has more than 50 Schools and Directors in Europe and this is the 1st European Ian Donald Congress of the "Old Continent".

Following the success of the last 3rd World Congress of the Ian Donald Schools held in Cagliari in June 2015, we are planning to organize the 1st European Congress.

The School bears the name of the British pioneering scientist Ian Donald who founded it together with Asim Kurjak in Dubrovnik in 1982.

The 1st European Congress of Ian Donald Schools will be joined by leading and dedicated intellectuals who made the dream of global education a reality. It will be an excellent opportunity to discuss current issues of advanced ultrasound in obstetrics and gynecology.

Come and enjoy the uniquely beautiful island of Sardinia and take part in the rich and stimulating scientific programme.

G. Monni – A. Kuriak – F. Chervenak

IAN DONALD INTER-UNIVERSITY SCHOOL OF MEDICAL ULTRASOUND

Objectives of the School

- To promote**
- the science and art of ultrasound scanning
 - research and education in the field of medical ultrasound
 - continuous training in ultrasound
 - and facilitate the dissemination of information, especially by scientific publications, including Donald School Journal of Ultrasound in Obstetrics and Gynecology
- To provide**
- expert advice to those entering the field of ultrasound
- To increase**
- knowledge of methodology for implementing recent ultrasound advances
- To contribute**
- to the improvement of teaching standards by the introduction of computer technology and devices for telemedicine
- The Ian Donald School is designed to address the needs of a clinician who has some experience in diagnostic ultrasound, but needs additional knowledge and practice in recent sonographic developments in both obstetrics and gynecology
